Title: Lienecil's Sword

This great sword was carried by Lienecil, the Silver Elf of ages past who was the first to meet the Golden Elves. Named 'Keaered' which means "To Plant the Seed", it was brought

by him from the Old Lands on the Lost Fleet and was with him when, here in this very forest a millenia ago, he made the first contact with the Golden Elves. It has survived the ages as a symbol of elven unity, for it was then the moment when the two races started to become one Nation.
